

MEETING INVITATION

I am a pharmacist committed to practicing patient-centred care with 25 years of experience. I have a keen interest in COPD, asthma, and heart failure. Working in the NHS, my knowledge encompasses community, commissioning groups, and primary care settings. My studies in France and the UK have provided me with the highest standard of training. I completed a Doctorate in Pharmacy (Paris), Postgraduate Diploma in Community Pharmacy (Cardiff), and independent prescribing (University of the West of England); and have started my ACP training with the University of Plymouth. Currently, I am based within a busy medical practice, seeing patients with a variety of complex issues. I am also an Associate Lecturer at UWE, supervise other pharmacists, and am a Designated Prescribing Practitioner.

I enjoy sharing my experience with colleagues. My motivation is to achieve excellent results for patients, helping them improve their quality of life by better engaging with their treatment.

This meeting is aimed at both practice based and community based pharmacists with a view to creating a network group and delivering regular education over the year based on the requirements of the group.

Optimising the Care of People with Respiratory Disease and How a Pharmacist can Contribute

Thursday 30th March 2023
19:00
