Follow this link:
Perceptions of cancer care in the
community survey

The Why:

To gain an understanding of the perceptions of community pharmacy staff towards the provision of cancer care in the community and what you see as the barriers to providing optimum care to patients with or at risk of cancer. The findings of this research will enable the development of targeted resources to support community pharmacy teams in caring for patients with cancer.

The Who:

All members of community pharmacy teams practicing in Australia, the United Kingdom, or Canada are invited and encouraged to participate. This includes pharmacists, pharmacy/dispensary technicians, and pharmacy assistants/medicines counter assistants.

Research Ethics Approval:

Ramsay Health Care HREC A (2024/ETH/0016)

The What:

The online survey takes approximately 7 to 10 minutes to complete.

The When:

The survey will be open from 09-Sep-2024 to 09-Dec-2024.

The How:

Participants complete an anonymous electronic survey at their convenience. Participation is completely voluntary.
