

# Pharmacy contractor improving resilience mentoring programme

The programme is designed to support contractors to enhance the resilience of their pharmacy business, protecting the community pharmacy network to provide a full range of services from community pharmacies. It will help the pharmacy team contribute to the local health economy, collaborating as neighbourhood teams. This works towards the vision for pharmacy in the NHS Ten-Year Plan, will better meet the needs of your local community and will see the pharmacy business grow in terms of turnover and profit.

You can watch a video which provides an overview of the resilience support programme [here](#).
